RAILWAY EXTENSION

REV. W. E. EDMONDS SAYS PACIFIC ELECTRIC IS READY TO COMPLETE ROAD

For three years a committee of the Glendale Chamber of Commerce has been working on the extension of the Pacific Electric street railway to the Childs' tract line and thence to Tropic. It now sees the completion of the second stage of its work. The first stage was the extension of the line to Glendale avenue; the second the further extension to the Childs' tract line and the final completion of the loop to Tropic.

The Rev. W. E. Edmonds is chairman of the committee and Mr. F. H. Vesper is secretary and treasurer. The committee has had a great deal of hard work during the past three years and has met with all manner of difficulty especially from people who imagined that the committee had a large sum of money to spend on buying up rights of way. These difficulties are now practically solved and the work of railway construction out to the Childs' tract will begin almost immediately.

"It may be stated," said the Rev. W. E. Edmonds, "that the work of construction will begin almost at once. The Pacific Electric construction gang is at present completing a piece of work at San Pedro and the moment that is finished they will begin on the construction work on Broadway. That will be within a very short time. The committee put a time limit of 60 days on this commencement simply to have a definite period to place before the public. Having complied with all the conditions of the railway company the committee has now the definite statement that the work will begin at once."

"It may seem a long time since this work was first spoken of; but it should be understood that the committee has during the time that it has been negotiating had to complete arrangements with more than 1000 persons regarding the right of way. It has had to condemn lots; to purchase lots and to arrange for the gift of lots for street purposes. It has now secured all the rights of way up to the Childs' tract and the greater part of the rights of way to Tropic. When the rights of way to Tropic have all been secured the road will be extended to that point."

"This will constitute a loop and will be a vast benefit to the whole east side of Glendale. Those who have doubted the wisdom of purchasing property in that section will see the wisdom of those who have done so. The whole region will develop in a most gratifying manner very quickly."

"Another thing that delayed the beginning of the railway was the necessity for inaugurating and carrying out opening and widening proceedings. These proceedings have been happily completed notwithstanding some opposition arising from a misconception of the nature of the work. There is nothing to hinder the completion of the railway now except the obtaining of a few rights of way in the Tropic direction."

"The committee is glad to see the approach of the end of its labors. It has worked diligently and feels that it has secured a great benefit for the East side of the city. By and by when Broadway has been opened and widened and finally paved all the way out to Eagle Rock road it will be one of the great arteries of city traffic and will be the means of giving impetus to further development of Glendale."

REV. JOHN TROY'S FATHER

The Alliance Weekly, a well-known journal of Christian Life and Missions, published in New York, states that special services were held in the Sumner Baptist church, Brooklyn, on Sunday, March 5. The occasion was the anniversary of the Rev. F. W. Troy, pastor of the church. The many friends of the Rev. John Troy, former pastor of the First Baptist church, Glendale, will be interested in this piece of news as F. W. Troy is the Rev. John Henry Troy's father. Dr. Troy of the Brooklyn Baptist church was formerly an evangelist and official worker of the Alliance and was widely and favorably known.

MARRIED

On Saturday afternoon, March 25, at the home of Mr. and Mrs. Jas. D. Davis, 1316 1/2 Hawthorne street, Dr. C. Irving Mills of St. Mark's church united in marriage Percy S. Pembroke and Miss Minnie E. Johnson, both of Berkeley, Cal.

WEATHER FORECAST—Generally fair tonight and Tuesday; north-west winds.

MORE DESPERATE WARS

ELDER SNYDER IN ADDRESS AT ADVENTIST CHURCH SAYS WORSE TIME COMING

More desperate preparations for war by all the nations than the world has even seen, culminating in the awful struggle of Armageddon, are sure to follow the European war, according to Elder George A. Snyder, of Los Angeles, who spoke at the Glendale Seventh-day Adventist church, Third and Isabel streets, Saturday morning. For this reason, the speaker added, every soul must prepare to meet its God, for Jesus is soon coming in the clouds of heaven.

Foremost thinkers of the world told the public a few years ago that the terribly destructive war inventions, and the mammoth preparations for strife, would prevent further wars by making men afraid to fight, said Mr. Snyder. But Seventh-day Adventists knew from a study of the Bible prophecies that the greatest war in the history of the world was about to burst forth. Time has demonstrated which was right.

"These same wise men say today that the present war is so terrible as to make future wars impossible. But Seventh-day Adventists know from a study of the Scriptures that while this present war may cease, it will bring such a legacy of hatred as will lead straight on to Armageddon. Inasmuch as the great wise men proved to be wrong a few years ago, they may prove to be wrong again, and inasmuch as the Bible prophecies proved to be right a few years ago, there is much assurance that they may be right again. The final great clash of nations will come at no distant date."

"In the latter part of the 11th chapter of the book of Daniel, a certain nation is mentioned, called the 'King of the North.' The 41st verse says 'He shall enter also into the glorious land,' which is another name for the Holy Land, or Palestine. If we are in the 'time of the end,' and we surely are, and if we know what power is now in possession of Palestine, we may know who the 'King of the North' is. Unquestionably, the 'King of the North' is Turkey. Verse 44 says further: 'Tidings out of the east and out of the north shall trouble him: therefore he shall go forth with great fury to destroy, and utterly to make away many.' Russia, lying both to the north and east, has troubled Turkey for many years. Since after slice of Turkey's possessions have been cut off, until today there is only a little more than enough for Constantinople to stand upon."

"In verse 45 we read, 'And he shall plant the tabernacles of his palace between the seas in the glorious mountain; yet he shall come to his end, and none shall help him.' The 'glorious, holy mountain' can be no other place than Jerusalem, the 'Holy City.' Some day this power will be driven from Constantinople, and make his last and final stand at Jerusalem. The prophecy does not tell us what the series of events will be between the time when Turkey leaves Constantinople and the time when it makes its stand in Jerusalem. We cannot say that as soon as the Sultan leaves Constantinople he will go to Jerusalem. Some time might intervene. We do not know. But we are certain that eventually he will go there."

"Knowing these things, students of Bible prophecy were not at all surprised when Turkey joined the great war. Nor were they surprised when the Allies gave Turkey notice when she contemplated joining Germany, that such action on her part would not only mean her expulsion from Europe, but the blotting of the Turkish Empire from the face of the earth. Neither were they surprised when a Turkish diplomat said Turkey would suffer, whichever way the conflict turned, because Germany had promised Turkey to Bulgaria, while if the Allies win, Turkey probably will go to Russia. If Turkey loses Constantinople, she will be compelled to make her capital in Asia, for her territory in Europe is practically gone."

"The prophecy of Daniel, continuing in the 12th chapter, first verse, says: 'And at that time shall Michael stand up, the great prince which standeth for the children of thy people; and there shall be a time of trouble, such as never was since there was a nation even to that same time: and at that time thy people shall be delivered, every one that shall be found written in the book. And many of them that sleep in the dust of the earth shall awake, some to everlasting life, and some to shame and everlasting contempt.'"

"Michael is Christ, for Daniel 10:13 calls Michael 'the first of the chief princes,' and Daniel 8:25, speaking of the crucifixion of Christ, (Continued on Page 4)

GERMANS CONTINUE VERDUN BOMBARDMENT

TEUTON INFANTRY ATTACKS HAVE CEASED FOR THE MOMENT BUT ARE EXPECTED WHEN CANNONADE CEASES

(Special Service to Glendale Evening News)

PARIS, March 27.—The Germans have been hurling thousands of tons of steel in the shape of big shells against the French positions at Dead Man's hill. The bombardment in the neighborhood of Malancourt is exceedingly violent. In the Woevre district the bombardment is intermittent. No infantry attacks are reported; but it is believed that the bombardment is the usual advance notice of such attacks. In the forest of Argonne the French are sedulously bombarding the German positions.

HOSTILE MEXICANS FIRE ON U. S. DRIVERS

ARMY TRUCKMEN RETURNING FROM THE FRONT REPORT CONSTANT SNIPING ALL ALONG THE WAY

(Special Service to Glendale Evening News)

COLUMBUS, N. M., March 27.—Many drivers of army trucks arriving from the front today reported that they had been fired at from all parts of the line by concealed Mexicans. Many of the wagons were hit in several places. The drivers had narrow escapes. One of them had a bullet hole in his hat. Three thousand troops will be sent to the front very soon. Lieut. Dargue left in a war plane this morning for the front. There are now quite a number of aeroplanes doing scouting work with Pershing's command.

SUBMARINE WAR GOES ON STEADILY

THREE MORE BRITISH STEAMERS AND ONE FRENCH VESSEL SUNK BY GERMANS

(Special Service to Glendale Evening News)

LONDON, March 27.—Three more British steamers and one French vessel have been sunk within the past twenty-four hours. One of these was the St. Cecilia from Portland, Me.; another was the Fenay Bridge from Philadelphia. The British admiralty is working out plans for the capture of the new submarines, which seem to be able to evade the British net system.

ELEVEN PERISH ON BOARD MINNEAPOLIS

BRITISH STEAMER TORPEDOED BY TEUTON SUBMARINE SINKS BEFORE AID COULD REACH HER

(Special Service to Glendale Evening News)

LONDON, March 27.—It has now been definitely ascertained that eleven were killed on board the British liner Minneapolis, which was sunk last Wednesday in the Mediterranean by a German submarine. The steamer Leicestershire heard the distress call of the Minneapolis but when she arrived at the scene of the disaster the vessel had disappeared. The Minneapolis was 16 years old and carried passengers as well as freight.

NATIONAL DEMOCRATIC SECRETARY DIES

THOMAS J. PENCE PASSES AWAY IN PHILADELPHIA AFTER HARD SERVICE AND LONG ILLNESS

(Special Service to Glendale Evening News)

PHILADELPHIA, March 27.—Thomas J. Pence, secretary of the Democratic National committee, died in this city Sunday at 2:30 p. m., after a lingering illness. Mr. Pence had put in a long time in hard work in connection with the organization of the Democratic party, especially during the past few years. He was widely known throughout the country. His death occurred after a lingering illness in the intervals of which he would be found at his labors.

ALL AMERICANS ON SUSSEX ACCOUNTED FOR

ALL CITIZENS OF UNITED STATES ON THE TORPEDOED CROSS-CHANNEL BOAT WERE SAVED

(Special Service to Glendale Evening News)

LONDON, March 27.—All the Americans who were on the ill-fated Sussex when she was torpedoed by a German submarine have been accounted for. They were all saved, though several of them were seriously injured and are now in hospital. Many of the passengers, including several Americans, were hurt by the explosion; many passengers jumped overboard and were drowned and some were drowned when the lifeboats capsized.

STANDARD OIL STEAMER SINKS LAUNCH

SIX PERSONS DROWNED WHEN PLEASURE BOAT IS RUN DOWN BY OIL TANKER IN VALLEJO BAY

(Special Service to Glendale Evening News)

VALLEJO, Cal., March 27.—Six persons were drowned Sunday afternoon, when a pleasure launch was run down by a Standard Oil tanker, the Coalinga, in Vallejo bay. The launch was struck amidships as it tried to avoid the oil vessel and several of those drowned were hit and knocked insensible.

IRELAND'S WORDS GRIP

FIRST M. E. CHURCH CROWDED TO HEAR POPULAR EVANGELIST

Sunday was a great day at the First Methodist church. The Revival Mission now in progress, with Evangelist Ireland, drew great congregations. Seating room was at a premium, and the interest in the meetings was earnest and deep. One of the noticeable features of the services was the large attendance of men. The evangelist has a robust directness of address which may account in some measure for the large male attendance.

Mr. Ireland, who in former years was a drummer, was at his best yesterday. His theme in the morning was "Twice Born Men." Never since the mission began has the evangelist been in better preaching mood than at this service. With intense earnestness he threw himself into the service. He showed that real Christianity was a matter of regeneration and not of cultivation. Culture was good but was not Christianity. Ethical culture societies could never take the place of the spirit of God, the forms of church service, the modes of baptism and the trappings of churchianity were not Christianity. Education and culture might make a rascal a bigger rascal. "That which is born of the flesh is flesh and that which is born of the Spirit is Spirit."

At the evening service Mr. Ireland spoke on "Two Sure Things for Every Man." These things were death and the judgment. In graphic words the speaker carried his hearers from the solitary bier, over our battlefields and national cemeteries, showing that "it is appointed unto men once to die." Then with keen, but kindly, word he showed how character comes to its judgment. Character determines destiny. Memory bears its evidence to one's life and work.

The evangelist made a deep impression on his hearers. He puts his finger on the weak places in human nature and points men to God as the unfailing remedy for the sins and weaknesses of humanity. There are no doubts or ifs about his preaching. It is tremendously positive.

Mrs. Ireland had charge of the Epworth League service last evening and in a very winning way brought a practical message of service to a great company of young people.

"The Wilsons," the well-known ladies' quartet from Los Angeles, will sing tonight. This quartet is one of the finest. The service tonight will be "Family Night." Prof. Lowinsky, celebrated violinist, will render a violin solo.

WAYS AND MEANS COMMITTEE BUSY

The Ways and Means committee of the Tuesday Afternoon club, of which Mrs. Dan Campbell is chairman, decided upon a feasible and most practicable plan by which to realize sufficient funds with which to liquidate the debt on the building lots of the club. With the approval of the Board of Directors of the club, circular letters, setting forth the object and purposes of the Ways and Means committee, were sent each club member. Tuesday, March 28, was the last date upon which payments in response to this letter to the club members were requested. It is the earnest desire of Mrs. Campbell and the committee that all members, who wish to thus aid in liquidating the indebtedness, respond at tomorrow's meeting. Checks made payable to Mrs. S. C. Packer or the Tuesday Afternoon club will be accepted with thanks.

At the reception to be given at the home of Mrs. H. E. Bartlett, club president, Thursday, Mrs. Campbell and the members of the committee are planning a unique innovation, as a happy finale to their efforts, providing there is a generous response to the circular letters, Tuesday.

TROPICO UNION ORGANIZED

Mrs. Hattie E. Gaylord, county organizer for the Woman's Christian Temperance Union, completed the organization at Tropic Friday, March 24, which will be known as the Tropic Woman's Christian Temperance Union, being the first society of its kind there. Officers elected were:

President, Miss Virginia Anderson; vice president, Mrs. Marple; recording secretary, Mrs. Copp; corresponding secretary, Mrs. Sharp; treasurer, Mrs. Richardson.

With both the Presbyterian and M. E. pastors' request for this union and as members the ladies will greatly increase their range and go forward in the cause of temperance.

CHEAP GASOLINE BILL

GREAT NATIONAL INTEREST TAKEN IN CONGRESSMAN RANDALL'S MEASURE

Great national interest is being taken in the resolution introduced by Congressman Randall in the House of Representatives for the production of gasoline through the Rittman process, which increases the yield of gasoline utilizing for this purpose crude oil, kerosene or any other low-grade distillate. The resolution was introduced March 17 and was referred to the Committee on Mines and Mining and ordered to be printed. Following is the resolution:

RESOLUTION

Whereas the products of petroleum have become an absolute and daily necessity in almost every avenue of industrial enterprise, as well as in the social and domestic life of the people; and

Whereas the power generated today by gasoline and other products of petroleum is more than double that produced by all other agencies combined; and

Whereas the use of gasoline has increased from six million six hundred and eighty thousand barrels in eighteen hundred and ninety-nine to forty-one million six hundred thousand barrels in nineteen hundred and fifteen, all produced by wickedly wasteful methods, the unnecessary utilization of petroleum being enormous; and

Whereas the total visible remaining supply of petroleum in the United States is estimated at approximately seven billion six hundred million barrels, which, as the present rate of production (two hundred and eighty million barrels a year), will be exhausted in twenty-seven years; and

Whereas exploitation of rich petroleum deposits has been carried on by monopolistic corporations to secure quick and unearned profits, without regard for the conservation of this natural resource; and

Whereas the Standard Oil group has distributed since December, nineteen hundred and eleven, in regular and extra cash dividends a total of \$290,666,083, to which must be added stock dividends at par totaling \$169,100,000, and taking into account the present market price of distributed stock, the profits of this corporation, reaped from a natural resource placed in the earth for all the people, is in excess of \$500,000,000 in the last four years; and

Whereas nearly all waste of petroleum and crude oil can be saved by producing gasoline through the Rittman process, discovered in the Bureau of Mines, and now the property of the United States, which not only increases the yield of gasoline, but utilizes for this purpose crude oil, kerosene, or any other low-grade distillates, none of which are now used; and

Whereas this process has been placed freely at the disposal and use of private refining companies, including the Standard Oil Company, but declined because the Government insisted on a clause in the contract prohibiting monopolistic use thereof: Therefore be it

Resolved, That the Secretary of the Interior be, and he hereby is, directed to furnish the House of Representatives information in his department as follows:

First. The area and estimated supply of oil-bearing land owned by the United States, with description of the various grades of oil which can be produced.

Second. An estimate of the fuel needs of the Navy for a term of ten years and the effect upon the Navy if such oil lands are permitted to remain in private ownership and in the hands of speculators.

Third. The advisability of the establishment by the Government, through the Bureau of Mines, of oil-pumping plants, gasoline production by the Rittman process, and such other agencies as may be required, utilizing the oil reserves of the United States.

Resolved further, That the Secretary of the Interior be, and he hereby is, directed to report to the House of Representatives his opinion as to the advisability of the purchase, by condemnation proceedings, or in any manner whatever, by the United States of the entire oil-producing area of this country, to the end that the United States may protect fuel supplies for its own use in the future and to conserve for all the people a natural resource which is so indispensable as petroleum.

GLENDALE, CALIFORNIA, MONDAY, MARCH 27, 1916

TALK OF PEACE IN EUROPE

It is certain that the whole world would heave a sigh of relief were word to be flashed tomorrow to the different nations that the belligerents had at length concluded that there is nothing to be gained from a prolongation of the war. It must have by this time become abundantly clear to the German kaiser and his advisers that they are not going to get anything out of the contest. If with forty years' preparation they have not been able to accomplish one item of the program that was billed to carry them to Paris, London and St. Petersburg how can they expect to carry it out after a year and a half's desperate fighting that leaves them no farther than where they were when they set out.

Besides this the bills that are being incurred and the money that is being borrowed to pay expenses have all to be liquidated some time or other. In the end those debts will come down on the German people with a weight that is almost incalculable. In a similar fashion Great Britain and France must find in the aftermath of the war a very troublesome burden. It can of course be lifted, but the present generation is likely to die in the process of lifting it. Those who read history will remember the poverty and distress that followed the great Napoleonic wars. That burden killed out one generation at least before it was finally dissipated.

What the nations may get out of this war is difficult to say. They will of course get something worth while if they get a final agreement for disarmament and a federated Europe which will undertake to deal jointly with any nation that will attempt to break the peace.

There are signs already that every one of the nations is heartily tired of the fighting. Of course everyone of the nations has all along been protesting that it has no idea of ending the war until the enemy is beaten. That is very much like the lady in the poem who, protesting "she would ne'er consent—consented." They are all protesting vehemently that the war will not close "until, etc.," but at the same time when pride has been sunk and ruin faces them as it does almost already they cannot fail to listen to the first reasonable peace proposals.

All proposals for peace already made or rather tentative hints that peace could be made on such and such terms are merely signs that the nation that makes them is willing to treat of peace in reasonable terms when the time comes. It is self-evident that Austria is financially exhausted; Hungary is in a bad way financially and is already calling out men of 45 years of age to fill her depleted ranks. Turkey is frantically signaling to the world that she has had enough and is on the point of ruin. Serbia is out of it as is also Montenegro. Italy is already contemplating with much uneasiness the monstrous bills she will have to pay with nothing to show for them. Russia is in a quandary.

Britain alone, of all the allies and Germany alone of all the Central powers has a great deal of fight left. Britain has swept Germany from the seas and taken possession of all her colonies, a territory very nearly half the extent of the United States. France is fighting a gallant fight of desperation and could not hold on a minute were Britain not in the breach. All of them are facing a year of increasing expenses and increasing difficulties and there is not the slightest doubt that each and all of them would be glad to entertain reasonable peace proposals that would embody some guarantee of future freedom from the constant threat of war. If this can be accomplished the world can possibly expect a century of comparative peace and prosperity.

DESTRUCTIVE ENGINES OF WAR

According to the latest cable dispatches the Germans have succeeded in inventing a new and terribly destructive engine of war with which they will shortly come out in an attempt to destroy the British fleet. It is stated that experiments on the lake of Geneva have shown that this new weapon is capable of being launched from a Zeppelin and also of being directed after its launching so that it can strike with deadly effect the object of attack on the face of the waters.

It is therefore announced with some degree of enthusiasm that the end of the British fleet is at hand. It is very probable that the Germans have invented some kind of dirigible torpedo. There is nothing very astonishing in that. An American boy, young Hays Hammond, son of the great mining expert, has invented a dirigible torpedo also. It is quite probable that the British have one as well. They have a habit of not saying much about what they have.

Those who are inclined to believe that the Teutons are able to finish up the forces of their opponents in this manner may well ponder on the ineffective nature of Zeppelins in general; the ineffectiveness of poisonous gas, of bombs filled with the germs of smallpox and bubonic plague such as the Austrians use, of the ineffectiveness of the much-heralded "Fokker" aeroplane, and of the hundred other inventions such as the projected flames of liquid fire used by the Germans in their present fighting. Notwithstanding all these aids the Teutons have not advanced their campaign in any way.

It may be noted that all the shouting and tumult with which every such new invention is heralded and the intimations that now the enemy is to be wiped out produce little or no effect on the enemy, who calmly awaits the onslaught and fights back with the same dauntless courage and the same human qualities which, in the end, are the deciding factors in any war.

It is impossible to frighten the people of a well-balanced race by mere shouting and threats of what can be done. The only effect of the Zeppelin raids has been to stimulate recruiting in Britain and her colonies; just as such raids would do in the United States. The weeping gases and liquid fire have not daunted either France or her allies; when it comes to the human element the freedom of the human spirit has inevitably risen superior to the mechanical workings of the over-drilled human automaton.

So it will always be. It is the human element that will in the end decide any war. Other things, of course, being equal, the nations that fight for the freedom of the race to develop in its diverse sections without being swallowed up in a single despotism must come out conquerors, no matter with what losses. Given anything like adequate preparation for defense not for defiance the United States can depend on its citizens to face any enemy and to conquer by the might of the great spirit of freedom that breathes in every freeman of this free land.

THE FIGHT AGAINST TUBERCULOSIS

California is fighting hard to obtain the assistance of the United States government in the war on tuberculosis. This State has a serious problem in that fight and is bravely facing the struggle. There are certain requisites for the care and cure of tuberculosis, such as proper buildings, enforced rest, extra diet, the nursing care and medical supervision, all of which mean the expenditure of a great deal of money. It is impossible for the counties to do all this alone. Should the federal government, however, provide a reimbursement of 75 cents a day, for the care of the tuberculosis patients, it would be possible to give them a chance for recovery and to the worst of them a place where they could cease their wanderings and be no longer a menace to every community in which they might elect to stay.

California has this problem, although it is not one of its own creation. The federal government will probably be got to realize that this State is the dumping ground for tuberculosis patients from every state in the Union. California is not going to close its doors, however, because the problem is so serious. It has never done so and probably never will. However, it should be possible for the State to receive help for patients who have no claim on it. It is for this purpose that it desires the federal subsidy.

In connection with this work the care given to cases of tuberculosis among children in the Los Angeles County hospital is coming in for great commendation from competent authorities. By saving the children the future generation is being saved. Von Bering, the great tuberculosis expert, said, "Tuberculosis in the adult is the end of the song begun in the cradle."

Already many of the clinics in the country are beginning this work at the right end. Some day there will not be a clinic in the United States that will not be concentrating its energy on saving the children and thus preventing the growth of centers of infection.

With federal aid the counties of California will be able to contend against this dreadful evil. More beds in the county hospitals means the comfort of the patients and the saving of the children.

AEROPLANES GUARD ALLIES

PARIS, March 27.—Extraordinary precautions were taken today to prevent Zeppelin attacks on the building where the representatives of all the Allied nations are holding their council. The biggest fleet of aeroplanes ever assembled together since the war began has been making constant flights since early dawn. The fleet is divided into different sections and each section relieves another. In this way a constant air guard hovers over the building.

CANAL BETTER THAN EVER

The Panama canal is to be reopened next month, not only as good as ever, but far better than ever. The great slide which has closed it during the winter may really have been a blessing in disguise. It was bound to come some time, anyhow.

The dirt will continue sliding into the Gaillard Cut, the engineers say, until it has reached its "angle of repose." It is fortunate to have had that vast amount of debris safely out of the way, for there is just so much less to do in the future, and no subsequent slide will be so serious. The cost of this last dredging campaign will be balanced by reduced cost hereafter, and the improved equipment now on hand will enable the government to deal with future slides more effectively.

"The boast that prohibition does not hurt the wholesale liquor trade is heard no longer. It does hurt, and it keeps hurting worse and worse," says the Chicago Journal.

Six Texas breweries have agreed to pay \$286,000 in fines and to forfeit their charters. They were before the courts for political corruption.

It makes no difference whose name is on the safe provided you hold the combination.

Personals

Mrs. H. V. Everly, 1634 Oak St., has as visitors for the day Mrs. Harold Kurtz of San Diego and her 2-year-old son, Harold.

Mrs. Mabel Franklin Ocker was a guest, Friday, of Mrs. May Barnes Stith, of Hollywood, at the Los Angeles Country club.

Dr. and Mrs. Richard Lane, 1220 Doran street, were visitors in Banning, Cal., Saturday. They returned Sunday evening.

Dr. and Mrs. Lauler, 1427 Burchett street, will entertain, Tuesday, Miss Fowles of Los Angeles, Dr. J. Homer and Mr. W. Munro.

Mrs. James Hoffman, 124 E. Second street, was suddenly taken ill on Friday last. Her illness was caused by some form of heart failure. She is no better as yet.

Mr. and Mrs. G. H. Rowe of 516 Orange street entertained at dinner Sunday Mr. Irving Rigby and Miss Viola Rigby of Dundee, Ill., also Mrs. C. A. Hoxie of Hollywood and Mr. and Mrs. Robert Schultz of Highland Park. Mrs. Hoxie and the Schultzes were former residents of Dundee, Ill.

Mrs. Minnie Patterson, of Riverdale Drive, gave a pleasant noon luncheon last week, to a small party of friends. The rooms were charmingly decorated with sweet peas and ferns. The following guests were present: Mrs. John Lyons, Mrs. George Lyons, Mrs. Blake Franklin and Mrs. H. V. Everly.

Mr. and Mrs. Frank Brown, 520 Orange street, entertained Sunday Mr. and Mrs. Andrew Walker of Los Angeles, and Mrs. Walker's sister, at dinner. Mr. and Mrs. Walker were at one time residents in Glendale. They removed a short time ago to Los Angeles and now are going back to their old home in Detroit, Mich.

Mr. and Mrs. C. M. Van Dyke, 1430 W. Third street, chaperoned a large party of young people from Los Angeles, who made the ascent of Mount Lowe Saturday. The party spent the night in a comfortable cabin a short distance below the summit of the mountain and returned home Sunday night.

TROPICO

Chapter A. H. of the P. E. O. sisterhood of Tropico, held the regular monthly luncheon Friday, at the home of Mrs. William C. Mabry, 115 East Acacia street. Assisting the hostess were Mrs. Neil L. Chandler, Mrs. Merritt W. Ludden and Mrs. W. C. Wattles. Luncheon was served at a prettily appointed table, which was daintily decorated in sweet peas and ferns.

A business session followed the luncheon, which was conducted by the recently elected president, Mrs. John A. Logan, and her corps of officers. Miss Lloyd Galpin gave a most interesting talk on a recent trip she made to the South Sea Islands.

Mrs. Adelaide H. Imbler, of the Executive Board of the Department of California and Nevada, of the Woman's Relief Corps, with Mrs. Clara Holland of Los Angeles department president of the Woman's Relief Corps, were the honor guests of the Long Beach W. R. C. Saturday evening, at a banquet which was followed by a reception, at which four hundred members of the Post and Corps of Long Beach were present.

Mrs. Frank I. Marsh entertained Mrs. D. Jennison at her home, at luncheon, Sunday. Later Mrs. Marsh and her guest were the guests of Mrs. J. D. Botts and Miss Carrie Botts of Garvanza.

After a delightful visit of several weeks, as the guest of Mrs. Allen E. Boyce of South Brand boulevard, Miss Faye Gordon has returned to her home in Long Beach.

DEATH OF STILLWELL SLUSHER

Mr. Stillwell Slusher, rancher and retired miner, passed away at the home of his son, George Slusher, at Littlelands, early Friday morning, March 24, age 87 years. The deceased was a native of the state of Ohio but had lived in California for 66 years. Besides his son he leaves to mourn his death one daughter, who resides in San Francisco. Funeral services were held this morning at 10 o'clock from the Pulliam Undertaking Parlors in Glendale. Cremation in Los Angeles.

LOSES FINE COW

Mrs. Wilson, who keeps a small dairy, at First street and Verdugo road, was unfortunate enough to lose a fine and valuable Jersey cow, Saturday night. The animal had in some way got into a barn where some pets with paint were kept. The cow ate up the paint and shortly afterward was found to be suffering from poisoning. The paint is supposed to have contained a quantity of arsenic, as so many green paints do. Every effort was made to save the animal but it succumbed to the poisoning. Patrolman Hollenbeck, city dairy inspector, investigated the case and found that the cow had died of paint poisoning.

Dr. Enochs, 310 Brand, S. S. 309.

SILVER WEDDING

White Cherokee roses and buds, with their brilliant foliage, smiled and peeped from vases, bowls and nooks of the Hobbs' residence, 600 North Central avenue, Sunday, when Mr. and Mrs. John Hobbs entertained with a dinner party complimenting their cousins, Mr. and Mrs. W. H. Gould, of Illinois, who are visiting in Tropico while sightseeing in Southern California, and also as a happy reminder that March 25 was the twenty-fifth wedding anniversary of Mr. and Mrs. Andy Stephenson.

Sweet peas artistically arranged with orange blossoms and ferns centered the table. Not until Mr. and Mrs. Stephenson were seated at the well appointed table and admired the pretty hand painted place cards did they realize that this delightful affair also commemorated their twenty-fifth wedding anniversary. These pretty conceits were the artistic handiwork of Miss Dorothy Hobbs, niece of Mr. and Mrs. Stephenson, and were clever representations of brides and grooms.

Seated with Mr. and Mrs. Hobbs were Mr. and Mrs. W. H. Gould, Mr. and Mrs. Andy Stephenson, Mrs. Mary West, Mr. and Mrs. John A. Logan, Miss Katherine Hobbs, Miss Mary Logan, Miss Dorothy Hobbs, C. C. West and Dwight Stephenson.

BIRTHDAY EASTER PARTY

Dr. and Mrs. H. V. Everly, 1634 Oak street, have issued a most original invitation to a most original birthday party, which will be an Easter party. The party is in honor of the birthday of Hubert Everly, who attains his first year Monday, March 27. The following invitation was issued:

On Monday next Please be my guest. And may the day be bright and sunny;

We'll play the games we like the best And maybe meet the Easter bunny.

—HUBERT EVERLY.

The guests are: Joy Willisford, Isabel Franklin, Josephine Franklin, Durnell Yarrick, James Rames, Ruth Rames, Helen Rames, Marion Springer, Ralph Sprinre, Madeline Bellue and Jack Thune.

The color scheme of the rooms at the Everly residence will be yellow and lavender. Among the games that will while away the afternoon between 3 and 5 p. m. will be an egg hunt on the lawn. The youthful guests will also be invited to make Easter bonnets and prizes will be given for the best creation.

ST. MARK'S EPISCOPAL CHURCH

St. Margaret's Guild will meet tonight at the home of Miss Irene Read, 401 N. Central avenue, at 7:30 p. m. There will be Holy Communion at the church Wednesday forenoon at 9:30. A Lenten Tea will be given at the home of Mrs. Fortune, 1310 W. 9th street, from 3 to 5 p. m. on Tuesday, March 28, for the Rector's Guild and members of St. Mark's church. Mrs. D. F. Tracy and daughter will give a talk on life in Turkey, where they have been missionaries. A silver offering will be taken.

The Woman's Auxiliary will meet with Mrs. A. M. Parker, 311 So. Louise street, on Friday afternoon from 1 to 3 o'clock. All interested are urged to be present.

On Friday afternoon at 3:30 there will be evening prayer and meditation at the church. Services as usual next Sunday.

BROTHERHOOD MEETING

Those who have attended the open meetings of the Brotherhood of the First Congregational church know how enjoyable these affairs are and will doubtless help to increase the large numbers of those who are expected to attend the meeting tonight. The Brotherhood will hold its open meeting in the First Congregational church Monday night. Interesting and successful as former meetings have been it is expected that Monday night's affair will be even more attractive. Another issue of the "Brotherhood Breeze" will be issued. This publication will be characterized by the usual flashes of wit and the delightful humor for which it is deservedly famous. Come and enjoy a good time.

HOME AND MEN'S MEETINGS

There will be special noon meetings for men in connection with the First Methodist church Revival Mission. These will be held each day at the Chamber of Commerce room on Broadway, and will continue for about twenty-five minutes, beginning at 12:30. The speaker for tomorrow will be J. H. Sweet, superintendent of the Methodist Mission, Los Angeles. He is a man with a message.

Home prayer meetings tomorrow at the residences of Mrs. E. D. Potter, 220 S. Verdugo road; Henry Johnston, 335 S. Everett; C. E. Russell, 422 S. Louise; G. C. Claver, 125 N. Kenwood.

AUTO COLLISION

An auto collision occurred Sunday afternoon in Tropico, on San Fernando road, when an auto driven by D. C. Foy of 468 W. 42nd street, Los Angeles, struck an auto belonging to the Studebaker garage of Glendale. The damage done was not great and no one was hurt.

HIGH PRICE ERA

WAR CONDITIONS AND MONOPOLIES BLAMED FOR THE INCREASED COST

The United States is entering upon what is believed to be an era of high prices. The ultimate consumer, as usual, is the victim. War conditions and a so-called monopoly of markets are blamed for the increase in the prices of commodities. Retail prices began soaring recently and they are still ascending at such a rate that no one seems able to guess when the high level will be reached. Shoes, clothing, stationery, hair brushes, pocketbooks, painted articles of all kinds, photographic supplies, varnishes, medicines—nearly everything that a man uses every day—have increased from 10 to 30 per cent in price, according to experts.

War Starts Increases

The rise in the prices of raw material needed for military uses or customarily imported from Germany and Austria that occurred almost simultaneously with the beginning of the war was soon accompanied by a rise in the prices of those domestic products which were substituted for articles withdrawn from the market because of the war.

These increases affected only the manufacturer and wholesaler at first, for retailers had supplied themselves with stocks at prices that prevailed before the war. When these stocks were used up and had to be replenished the retailer felt the price advance.

As prices have been rising steadily for months, with unprecedented acceleration in the last few weeks, the prediction was made generally that this spring would make those purchased last winter look cheap.

Paper at High Mark

Probably the most important rise of all has been in the price of paper. For consumers of large quantities of paper conditions have been serious for some time and recently even the smallest purchaser has had to pay his share in the general price advance.

With the price of aniline colors raised from 20 cents a pound before the war to \$20 a pound when last quoted, tinted papers have become very expensive and in some cases unobtainable. Leather prices are away up. The price of all shoes will be materially higher this season than ever before.

CLUB TO HEAR REPORTS

The meeting of the Glendale Tuesday Afternoon club tomorrow will be of unusual interest as the returning delegates will bring reports from the federation convention at Hollywood. Mrs. Daniel Campbell will report for Tuesday and Wednesday forenoons; Mrs. C. E. Harlan for Wednesday afternoon and Friday; and Mrs. E. W. Kinney for Thursday.

The topic for tomorrow is "Proposed Legislation of Interest to Women," a question which will be ably handled by Dr. Jessie A. Russell, Chairman of Legislation of the Tuesday Afternoon club and member of the District legislative committee. She will cover all bills and amendments now before the voters for consideration, including the Community Property bill, Mothers' Pensions, the Woman Juror bill, State Aid for Defective Children and all other bills of special interest to women.

HONOR KANSAS GUEST

Tall stately calla lilies graced the home of Mr. and Mrs. C. E. Thompson, 1415 Burchett street, Sunday, when they entertained with a dinner complimentary to Mr. Winfield Tufts of Concordia, Kansas.

Mr. Tufts has been spending a few days as the guest of Mr. and Mrs. Thompson, following a tour of California and a visit in San Diego. The delightful dinner of yesterday was the termination of Mr. Tufts' visit in Glendale, and the happy occasion which Mr. and Mrs. Thompson afforded Mr. Tufts was also enjoyed by Mr. and Mrs. A. D. Tilkin of Los Angeles. Following dinner Mr. and Mrs. Thompson, with Mr. Tufts, Mr. and Mrs. Tilkin, Mr. and Mrs. Charles Thompson and family, enjoyed a delightful motor trip throughout the San Fernando Valley.

SOME POLITICAL PLUMS

Three political plums in the form of high salaried jobs will be thrown open to applicants by the state civil service commission of California within the next six months. The position of assistant secretary of the state board of health has been provided for with a salary of \$2400 a year. The other two positions are jobs of deputy clerks in the first and third district appellate courts with a salary of \$2000 a year. The following examinations were also announced by the commission: May 6, patcher, harbor commission; May 13, hydrotherapist; May 20, fish and game warden; May 27, chief clerk, messenger, for San Francisco only; June 3, farm traction operator and abalone inspector, salary \$1200 a year.

The United States government has placed a ban on liquor advertising calendars in federal buildings. Attorney-General Gregory has caused the substitution of a neat calendar prepared by the Government itself.

GLENDALE FOOTHILLS

Mr. and Mrs. W. E. Hewitt, 728 N. Louise, were visitors at the Los Angeles Country club, Sunday. They took luncheon and spent the afternoon there.

Mr. S. W. Corwin of 419 N. Central avenue is building a reservoir for Mr. J. McMillan, on his large ranch at the corner of Louise and Mountain. Mr. McMillan has his ranch in good shape and keeps two men constantly at work on it.

Mrs. T. E. Crossin, 1421 Valley View road, who was recently taken to the Pacific hospital in Los Angeles, suffering from some form of blood poisoning, is reported not so well this week.

E. M. Moore of the Casa Verdugo Dairy, 1726 Kenneth road, has extended his business so much that he finds it necessary to get more cows in order to handle the new customers that make constant application for the milk of this dairy. Mr. Moore's herd consists almost entirely of the Jersey-Guernsey breed. This breed gives a very rich milk of a very fine color. The quality is very excellent and the milk is rich in cream. Mr. Moore made a trip up to San Fernando the other day to endeavor to find some of this breed but was unsuccessful, as he will not accept anything but the very best kind of animal. Considerable work has been going on at the dairy during the past few weeks. Repairs and alterations made have improved conditions greatly. Among other improvements a new cement floor has been added to the milking sheds.

FOR LITERARY SECTION

Members of the Literary Section of the Tuesday Afternoon club are invited to be special guests of the Parliamentary section of the club, Tuesday afternoon, at 1:30. The meeting will be held in the Masonic Temple. Matters of importance to the Literary section will be the study of the day. All members of the Parliamentary section are urged to attend.

SAMPLE BALLOTS

The city clerk has ordered printed 3550 sample ballots for the coming municipal election and in a few days these samples will be mailed to the voters residing in Glendale. The election occurs April 10 and at that time three trustees, a city clerk and a treasurer to be elected.

The trustees whose term of office expires are A. W. Tower, Geo. Williams and O. A. Lane. These gentlemen will not be candidates for re-election.

Upon receipt of the sample ballot you will be advised by reading it who the candidates are, or you may refer to the columns of the Evening News and see who they are.

The Evening News has no favorites, but does favor the election of capable men,—men who will fill the position to which they are elected with dignity and ability. The Evening News is of the opinion that a mass meeting should be held to which all candidates might be invited and there give the platform on which they stand.

CONGREGATIONAL SOCIAL

The regular monthly business meeting of the Christian Endeavor society of the First Congregational church will be held Tuesday evening at 7:30, at the home of Miss Millie Alvord, 1314 W. Broadway. All young people are invited to attend. There will be games, refreshments and a good time.

Fearest sometimes that thy Father hath forgot? When the clouds around thee gather Doubt Him not. Always hath the daylight broken, Always hath He comfort spoken, Better hath He been for years Than thy fears.

Children from sanitary homes advance more rapidly in school than those from dirty premises.

There is no Federal institution in the continental United States for the reception and care of lepers?

Unmarried People

ought to save at least one third of their salary. Do you?

By so doing you'll be in the monted class early in life.

DAINTIES FOR AFTERNOON TEA

Nut Cream Loaf—Use one cupful of milk or cream and three cupfuls of granulated sugar; stir these together in a saucepan until the sugar is dissolved. Place over the fire and stir continually until it begins to boil. Cook until it forms a soft ball when tried in cold water. Take from the fire and let set without stirring until almost perfectly cold. It will be thick and hard to work until it has been stirred for a time when it will become easier. Beat until it begins to cream and turn it out on a board. Knead until it will retain its shape. Mix in one cupful of chopped nut meats and flavor with vanilla extract. Form into long round loaf and set in a cool place until it is stiff.

Marble Cake—Two cupfuls of sugar, two-thirds cupful butter, three well-beaten eggs, one cupful of sour milk, one teaspoonful of baking soda, one teaspoonful of vanilla extract, a pinch of salt and three cupfuls of flour. Cream the butter and sugar together, add the eggs and beat again, then add the soda mixed with the milk, vanilla, salt and flour. Mix well and remove half of this batter to another basin and add one tablespoonful of black molasses, one cupful of finely chopped raisins, one tablespoonful of melted chocolate, one teaspoonful of powdered cinnamon, one-half teaspoonful of powdered cloves and one-fourth teaspoonful of grated nutmeg. Mix and drop the mixture by large spoonfuls into a well-buttered and floured tin. Let the oven be of moderate heat and bake for one hour.

Eggless White Cookies—Cream two and one-half cupfuls of granulated sugar with one half cupful of lard and one-half cupful of butter; add one teaspoonful of baking soda dissolved in two cupfuls of buttermilk and at teaspoonful of baking powder sifted and added with enough flour to make a soft dough. Roll out, cut with a small cutter and bake in a hot oven to a crisp, golden brown.—From the People's Home Journal for March.

BURBANK CITY HALL

Architects Elmore R. Jeffery and Frank R. Schaefer, 1201 Van Nuys building, are preparing working plans for the new municipal building at Burbank, preliminary plans having been approved by the city trustees. The building is to be two stories and will contain city offices, quarters for the fire department and city jail. There will be two steel cells and a steel tank with ten beds. Dimensions, 47x92 feet; concrete foundation, brick walls with Rug brick facing, artificial stone trimmings, composition roof, pine trim, maple floors, toilets and lavatories, electric wiring. A boiler room will be provided, but gas heaters will probably be used temporarily. There is about \$13,000 available.—Southwest Contractor.

GEORGE WASHINGTON PLUNKITT

George Washington Plunkitt, described by the New York World as having "fought Homeric battles for the Tammany leadership of the upper west side," says:

"There's an honest graft and I'm a good example of how it works. I might sum up the whole thing by saying I see my opportunities and I took 'em."

"Of the \$989,636.94 New York City will pay this year for rented quarters for its offices, \$429,936.94 will be expended in Manhattan—43 per cent of the entire bill, although it is in Manhattan that the municipal building stands," says the World. Considerably more than one-third of the amount spent in Manhattan will go to four landlords, three of them corporations. The individual is George Washington Plunkitt."

LEAP YEAR IN HAWAII

Leap year privileges have been carried to the greatest extreme of modern times by beautiful brunettes of the Tahiti Islands, according to Walter Hall of Phoenix, Ariz. Hall is in San Francisco resting up after a long sea voyage, during which a stop was made at Tahiti. Because of the European war Tahiti has been almost entirely deserted by the male population. The island is overcrowded with beautiful maidens who have been left in charge of plantations there. When the steamer Chelish upon which Hall had shipped touched the pier at the little island scores of women beseeched members of the crew to desert and elope with them. Since the war they say Tahiti has become an Adamless Eden.

NOT IN HIS LINE

"Have you studied political economy?"
"No, sir. Economy is all right in its place. I'm one of those who believe in keeping business out of politics."

SOUTH AFRICAN COATS

CAPE TOWN, South Africa.—Nearly 100 coats have been sent to the war office by the people of South Africa. The movement is being pushed vigorously and it is hoped to considerably increase the number of skins turned out weekly from the tanneries in the near future, so that a total of 10,000 coats may be sent.

MORE DESPERATE WARS

(Continued from Page 1)
calls him the 'Prince of princes.' The return of Christ to the earth, and a time of trouble the worst the world has ever known, are right before us.

"Revelation 16:12 speaks of the drying up of the great river Euphrates. But the language used is symbolic, referring to the country of Turkey through which this river runs. The drying up process has been going on for years. It is under the sixth of seven plagues that this is finally to be accomplished. The verses that follow this speak of the battle of Armageddon, and the end. Knowing Turkey's condition at the present time, and that the close of probation for mankind is at the beginning of the first plague, how important it is that we should be prepared to meet God.

"Willing obedience to God's will is required of all, but it is not now too late to turn to God. Christ's invitation, 'Come unto Me all ye that labor, and are heavy laden, and I will give you rest,' is still extended to all. We may have peace with God, and the assurance that our names are indeed written in the 'book of life.'"

"Pitcairn Island—Its Wonderful History" will be the subject at the young people's meeting in the Adventist church here next Friday night at 7:30.

THE NIGGER IN THE COAL-PILE

By E. WYE

Oh, hear the "operators" screech,
Ah, hear the public curse—
What very, very dreadful speech
Before us they rehearse!
The former swear they'll ruin'd be,
The latter these revile—
But I'm listenin' to hear a sound
From a gem-man in the pile.

There's a nigger in the coal-pile,
He's hidin', I opine;
These quarrels, they are naught to him,—
He merely owns the mine.

He puts up nary capital,
He puts no labor in—
He just consents to let 'em work
Whilst he rakes off the tin.

This gem-man doesn't print long ads,
So thuchin' that you weep.
He has no economic fads;
He just goes off to sleep.
He owns entire the coalfields an'
His place is in the sun—
His graft it is the fairest

That e'er the sun shone on.
Black magic his, a talisman
He waves before our eyes,—
We pony up his taxes, an'
We tax ourselves likewise.
We list his priceless caverns deep
As "agricultural" land,
An' on his head we favors heap
An' eat from out his hand.

But, nigger in the coal-pile,
How long do you suppose
Your very necromantic smell
Will fool our searching nose?
We've traced at last your darksome way,

We ken what you're about—
Old Hoodoo, say, some blessed day
We're goin' to tax you out!
—In Reddy's Mirror.

JAPANESE OFFICERS IN NORWAY

CHRISTIANIA, Norway.—A Japanese mission consisting of several officers of high rank who have been studying the military preparations in Russia, arrived in Christiania recently, en route for England. During the course of an interview which they granted to a representative of the press, the party bestowed high praise on the bravery of the Russian soldier. The Russian fortifications they described as unique. Several hundreds of Japanese officers are said to be in Russia at the present time, some of whom are with the field artillery and some with the engineers. The Japanese government, however, has not permitted them to take any active part in the war. In addition to the enormous quantities of munitions that Russia is receiving from Japan, the government has placed orders with Japanese aeroplane works for numbers of aeroplanes.

RAILROAD FOR ONE DOLLAR

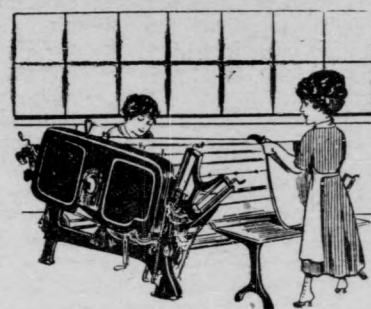

How would you like to buy an entire railroad system for \$1? Within the next few days the Laton and Western R. R. Co. will be taken over by the California, Arizona and Santa Fe R. R. Co. for that sum. All outstanding indebtedness except \$178,000 bonds will be assumed by the purchasing company, however. The Laton and Western line is 20 miles long.

CAT RINGS BELL

When a cat owned by the keeper of the Platte Fougere lighthouse on the island of Guernsey wishes to enter its master's dwelling it rings a bell, says Popular Mechanics. This has been made possible by the construction near the bottom of the door of a shelf which actuates a switch when a slight weight is placed upon it. Thus when the cat jumps to this small ledge the circuit is closed.

NATURAL INFERENCE

"I suppose wires are made of quick-tempered metal."
"Why do you think that?"
"Because it is so dangerous to cross them."

MORE NOISE THAN HARMONY

It is said that a din will be produced in a new Richard Strauss symphony by the following instruments: Eight horns, four trumpets, four trombones, two bass tubas, two harps, an organ and cello, bass drums, kettledrums, bells, cymbals, triangles, tom-tom and a shepherd's bell, also eighteen first violins, sixteen second violins, eight double basses, two large flutes, oboes and clarinets.

BUSINESS "SCENERY"

"How's the scenery around Jinxville?"
"Infinitely varied and changed every week," answered the suburbanite.

"You don't mean to tell me the eternal hills move from their bases and the streams depart from their ancient beds?"
"Certainly not, but I dare say Jinxville has the busiest lot of billboards of any town in the country."

MILD CRITICISM

"These young men running up and down the streets in gymnasium suits while the thermometer hovers around zero are still in their right minds?" asked the Man from Mars.
"Oh, yes," answered his guide.
"But I would hardly go so far as to say they are in their right clothes."

DOMESTIC EXPERIENCE

"Do you believe life is a game of give and take?"
"Oh, yes," replied the meek-looking man, "but you don't quite convey the idea."
"No?"
"I've found life a game of give in and take back."

PAINFUL DEMONSTRATION

"You say this motorist took you to a hospital after he ran you down?"
"Yes."
"Nothing could be kinder."
"Maybe not, but he didn't have to run me down, did he, just to show me he had a kind heart?"

BARGAINING FOR THE FEATHER

"My dear, I wish you would learn to make a good cup of tea. It would be a feather in your cap."
"If I learn will you buy me that willow plume?"—Louisville Courier-Journal.

DANGER

"Don't give your fiancée that Chesapeake Bay dog of yours."
"Why not?"
"There might be trouble. Didn't I hear you say she was a duck of a girl?"

A TEST FAILURE

"A good soldier always keeps his head at a critical moment."
"Well, our captain lost his head just as we were about to charge."
"What made him do that?"
"A cannon shot it off."

It now looks as if the town of Hoquiam, state of Washington, which refused to accept a \$125,000 post-office building for the extraordinary and until then unheard-of reason that it did not need so costly a structure will before long need one even costlier, owing to the desire of multitudes of people to become part of a community so frank, honest and patriotic as to decline "pork."—C. S. Monitor.

HAS MANY FLOWERS

New South Wales claims to have more varieties of flowering plants than all Europe.—Ottawa Citizen.

THE HAYLOFT

Through all the pleasant meadow-side
The grass grew shoulder-high,
Till the shining scythes went far and wide
And cut it down to dry.

These green and sweetly smelling crops
They led in wagons home;
And they piled them here in mountain tops
For mountaineers to roam.

Here is Mount Clear, Mount Rusty-Nail,
Mount Eagle and Mount High;—
The mice that in these mountains dwell,
No happier are than I!

O what joy to clamber there,
O what a place for play,
With the sweet, the dim, the dusty air,
The happy hills of hay.
—Robert Louis Stevenson.

CALIFORNIA ONCE COAL PRODUCING STATE

The records of the State Mining Bureau of California show a production of coal in California as early as 1861. At that time it was one of the 16 coal-producing States and, relatively, of some importance as a coal producer. During the latter part of that decade and throughout the following decade the coal production of California exceeded 100,000 tons annually and reached a maximum of 236,950 tons in 1880. Since 1881 the production has been irregular, having been influenced chiefly, up to the beginning of the present century, by the imports of Australian and British Columbian coals, the receipts of Australian coals depending principally upon the wheat production and shipments from the Pacific Coast. Since 1900, however, according to the United States Geological Survey, with the great increase in the production and use of petroleum which began in that year, coal production in California has fallen off.

THEOSOPHISTS WANT MONEY

An appeal for permission to issue half a million dollars worth of bonds has been made to the state corporation commission by heads of the School of Antiquity Operating company, San Diego county. The money is proposed to be used in the construction of new buildings. Catherine Tinsley, leader of the Theosophic cult, is president of the school.

The first man was a farmer and there wasn't a gold brick agent in the whole universe.

A friend of mine has named his dog "Waiter" because he never comes when he is called.

Look after the pennies and the dollars will buy a small piece of tenderloin steak.
